Author: Ray Mroczek

Version 1 (subsequent versions will be on other tabs)
Last Updated: 1/5/2023

1: What are we delivering, and what information do we need to collect?

2: What tools will we use to collect this information?

3: What is the detailed description of what we intend to provide?

4: Does our plan meet client expectations?

5: How will we retrieve and send collected data?

6-12: What are our internal processes for ensuring that the analyst has the data they need in order to create all deliverables?
